

Ystrategies (OTCMKTS: YSTR) Announces Science and Technology Advisory Board

-- Experts to provide guidance, insights on trends and intellectual property --

San Francisco, CA, February 21, 2017 -- Ystrategies (OTCMKTS: YSTR) today announced the creation of its Science and Technology Advisory Board. The group of experts will provide the company with guidance on science and technology issues in advanced technologies, renewable energy and energy efficiency, among others.

“You can’t have too many opinions of great technologists,” said Jim Kiles, Chairman & CEO of Ystrategies. “We are building a strong bench of experts across industry, government labs and academia that can help us understand which of the latest technology solutions and applications in our pipeline have the best opportunity for practical application and rapid commercialization.”

Initial board members will include:

- Peter Therkelsen, Research Scientist and Building and Industrial Applications Department Deputy Head at the Lawrence Berkeley National Laboratory, where he develops combustion technologies and studies industrial energy management.
- Kevin McLoughlin, Senior Consultant at Environmental Consultants Inc., formerly an environmental science expert with the NY State Power Authority, EPRI and the Empire State Electric Energy Research Corporation.
- Dan Aronson, Founding CEO and CTO, Fandor, Founder and VP Engineering, Brightmail, Founder and CTO, Campsix and active angel investor.
- Scott Wallace, Program Manager of Energy to Care (American Society for Health Care Engineering’s national energy efficiency program), expert in commercial application of control systems/energy efficiency/renewable energy products & services.
- Ben Bartlett, Director of Strategic Partnerships at the California Clean Energy Fund. A long-time community leader and environmental lawyer, Mr. Bartlett also serves as a councilmember for the city of Berkeley, and is a member of the Association of Bay Area Governments.
- Mike Tucker, Research Scientist in the Energy Conversion Group at Lawrence Berkeley National Laboratory, where he develops electrochemical technologies including redox flow cells, and SOFC and PEM fuel cells.
- Vi Rapp, Research Scientist in the Energy Technologies Area at Lawrence Berkeley National Laboratory, where she develops ultra-low emission and net zero carbon combustion technologies for heat and power generation.
- Mary Vincent, EIR at SK Telecom Americas Innopartners, a Venture Fund & Accelerator for core technology companies in Silicon Valley.

- Richard Samuelson, former Investment Banker with UBS and BNP and currently an active angel investor.
- Lilian Chou, CEO of UX-FLO, with 20 years leading business development and strategy for start-up teams, turning failing business segments around, and managing global partners in companies like Nike, Sony, Autodesk and P&G.
- Jeff Weng, Executive Managing Director at USAREG Inc., a Silicon Valley based firm specializes on strategy consulting, venture investment, financing and M&A covering US and Chinese markets.
- Yuriy Wowczuk, Head – Global Production and Technology with Matthews International Inc., responsible for Matthews Management System (MMS) and provides leadership for global health & safety, corporate purchasing, supplier development, capital strategy, engineering, intelligent manufacturing/new technology and product development, M&A due diligence/deal flow, and human capital projects.
- Del Christensen, Chief of Global Business Development for the Bay Area Council overseeing trade and investment efforts between China and California.
- Mark E. Avsec, partner and Vice-Chair of the Innovations, Information Technology & Intellectual Property (3iP) Practice Group of Benesch, Friedlander, Coplan & Aronoff, LLP. He leads Benesch's 3D Printing Legal Team.

About Ystrategies Corp.

Ystrategies is a publicly-traded venture capital firm concentrated on building disruptive businesses focused on critical issues such as renewable energy and clean technology. Ystrategies invests in science and technology emerging from the US National Laboratory System, incubators, businesses and academic institutions. The Company looks for market-ready technology with products or services ready to engage identified customer segment partners in important commercial agreements. Investments are premised on closing strategic partner agreements as pathways to valuable exits. Ystrategies was founded by former Intel Capital Managing Director, Jim Kiles, who is supported by industry veterans Ashish Badjatia, Paul Overby, Jon Sigerman, Neil Cohen and Shirley Gee. Ystrategies has offices in Pittsburgh and San Francisco. For more information, visit Ystrategies' website at: <http://www.ystrategies.com>.

Forward Looking Statements.

Certain statements contained herein may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and it is our intent that any such statements be protected by the safe harbor created thereby. Except for historical information, the matters set forth herein including, but not limited to, any statements concerning our plans, strategies, investments, and objectives are forward-looking statements. These forward-looking statements are based on our current expectations, estimates and assumptions and are subject to certain risks and uncertainties. Although we believe that the expectations, estimates and assumptions reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results to differ materially from estimates or projections contained in our forward-looking statements are set forth in the Risk Factors section and elsewhere in the reports we have filed with the Securities and Exchange Commission. We do not intend, and undertake no obligation, to update any forward-looking statement.
